

VueGuard® 930 PST

ANTI-FOG CLEANER AND RESTORER

NEW FORMULATION

VueGuard 930 PST

The VueGuard 930 PST is a post surface anti-fog treatment that cleans and effectively restores the anti-fog properties of AF coated articles.

It is a superior cleaner and anti-fog restorer, specific to PCI Labs AF coated articles.

VueGuard 930 PST can be used with:

VueGuard 931 AF-C coated articles
VueGuard 931 AF-D coated articles
VueGuard 931 AF-E coated articles

The VueGuard 930 PST – AM is an anti-fog and anti-microbial, cleaner and restorer to inhibit the ability of microbes to grow and minimize the transmission of disease from AF treated articles.

Benefits

- Quick Acting
- Longer Lasting
- Streak Free
- More Effective

The VueGuard 930 PST is simply applied by spray, 1 ml per 100 cm² of surface area. Spread evenly with a microfiber or nylon cloth and let cover for a period of 5 minutes to allow ingredients to penetrate the coating. Dry wipe off with a clean cloth with minimum pressure as to avoid scratching. The surface now is fully functional anti-fog.
